Scientists gave birth to a new concept, one that is as eternal as nature itself... an understanding of our **Electrical Body!**

We have available, maybe for the first time on our planet – **Electrically Available®** Natural Nutritional Supplements that are the leading edge of scientific knowledge. **Electrically Available®** means that the ingredients of each product are selected, graded, mixed and formulated taking into account the unique electrical matrix of each individual component (i.e -the way the neutrons and protons form the atomic structure). This method of formulation is used for all of Avena Original's natural supplements. This electrical formulation is carried out to ensure the individual components can electrically interface and merge with each other so as to be synergetically and electrically compatible to the body as food.
